

EMR Expert to Visit NZ

The topic for his talk is

“The Smart Electricity Grid (Smart meters or advanced meters): Claims, Pitfalls, and Unintended Consequences”.

Don Maisch, PhD will be visiting New Zealand in November, where he will be giving talks and also conducting electromagnetic radiation (EMR) risk assessments. Dr Maisch’s PhD thesis *The Procrustean Approach* examines the influence of vested interests on EMR safety standards.

**Dr Maisch will be giving a public lecture
in Auckland
on Thursday the 28th of November
in Murrays Bay, Outram Hall, 478 Beach
Road from 7pm to 8.30pm.**

The event is free. (Gold coin donations are welcome.)

**For questions about the event, please contact Stefanie
on stefaniehomeopath@gmail.com**
