The ULTIMATE EXPOSÉ on SMART METERS & the SMART GRID

Learn about

- In-home surveillance & violations
- Plans to “skyrocket” utility bills
- The truth about health issues and home fires
- Protecting YOUR RIGHTS

“Take Back Your Power” investigates the “smart” meter program being implemented worldwide by most of the major utility companies. These devices are **not mandatory**, but they are being installed without the consent of homeowners or even local governments.

Interviews with whistleblower **EDWARD SNOWDEN**, former CIA director **JAMES WOOLSEY**, former senior NSA Executive **THOMAS DRAKE**, former Premier of British Columbia **BILL VANDER ZALM**, and many others provide a deep understanding of the political and economic forces behind the “smart” meter-agenda. You’ll find resources and proven solutions for protecting yourself, your family, your home, and your rights.
